

To the residents of: Fawn River Township, Sherman Township and Sturgis Township.

We would like to thank you for approving our request for an Emergency Services Millage. We want our residents to know we appreciate your confidence in us so we may do the best we can for our entire community and residents. Please note that some years, one or all of the townships, may or may not request a millage after a public hearing. It will all hinge on what our budget requirements will be for that period.

Please know that whether you voted for this or not, we will continue to keep costs in mind when we do anything; we will strive to spend not on wants but only on needs.

Thank you for your continuing support.

Tri-Township Fire Department and Personnel
